

Texas Board of Nursing Bulletin

The mission of the Board of Nurse Examiners for the State of Texas is to protect and promote the welfare of the people of Texas by ensuring that each person holding a license as a nurse in the State of Texas is competent to practice safely. The Board fulfills its mission through the regulation of the practice of nursing and the approval of nursing education programs. This mission, derived from the Nursing Practice Act, supersedes the interest of any individual, the nursing profession, or any special interest group.

Top Questions Received by BNE Staff Answered

The Board receives many inquiries spanning a wide range of topics on a daily basis. Although many situations are unique, the Board also receives general inquiries regarding licensing procedures that can be easily categorized and answered. Below is a listing of these most frequently asked questions.

Q: I lost my license. How do I get another one? Is there a fee? How long will it take?

A: When a license is lost or stolen, you should report it to the BNE as soon as possible by doing the following:

1. Send a letter with your name, address, and license and/or Social Security number.
2. Provide a statement as to the disposition of the license.
3. Have the statement notarized.
4. Attach a \$20.00 check or money order.
5. Mail the \$20.00 fee and notarized statement to:

**Licensing Department
Board of Nurse Examiners
333 Guadalupe, Ste. 3-460
Austin, TX 78701**

6. Upon receipt of the fee and notarized statement, we will mail the replacement or duplicate license within ten working days.

Q: I need to change my last name due to marriage or a divorce. How do I accomplish this?

A: Send a letter to the BNE with the following information:

1. Prior name.
2. New name (the way you would like your license to read).
3. Address.
4. License and/or Social Security number.
5. Attach a copy of the official document that changes your name (marriage certificate, page of the divorce decree that shows the name change and date of the decree).

Although not required, if you want a new license reflecting the new name, attach your current wallet sized license and a \$20.00 check or money order to the information required above. Upon receipt of the letter, legal name change document, and fee, we will mail the replacement license within ten (10) working days.

Q: How do I change my address?

A: Change of address must be submitted in writing. Notification must include your name, address, license number, and/or Social Security number. You may send the notification via:

1. email to:
webmaster@bne.state.tx.us;
2. fax to: (512) 305-7401; or
3. mail to:

**Board of Nurse Examiners
333 Guadalupe, Ste. 3-460
Austin, TX 78701**

Q: How do I place my license on inactive status?

A: If your nursing license is current and not subject to discipline, you may request inactive status by checking the appropriate box on the front of the renewal form (obtainable at www.bne.state.tx.us), completing all applicable areas and mailing the form to the Board's address listed at the top of the form. No fee is required. If you desire to re-enter the practice of nursing in Texas, you will be required to pay a reactivation fee and meet all current requirements in effect at the time you desire to re-enter the practice of nursing.

Q: How do I place my license on retired status?

A: If you are 65 years or older and your nursing license is current, you may

apply for retired status by checking the appropriate box on the front of the renewal form (obtainable at: www.bne.state.tx.us), completing all applicable areas, and mailing the form with the appropriate fee (\$10.00) to the Board's address listed at the top of the form. You may not practice with a retired license. If you desire to re-enter the practice of nursing in Texas, you will be required to pay a reactivation fee and meet all current requirements in effect at the time you desire to re-enter the practice of nursing.

Q: Where do I find information regarding Certified Nurse Aides (CNAs)?

A: CNAs are registered by the Texas Department of Aging and Disability Services (www.dads.state.tx.us/business/ltr/credentialing/index.html). You may contact them at: (800) 452-3934.

Top Questions - continued from previous page

Q: I did not receive a renewal notice in the mail. How do I get one?

A: Sixty days prior to your license expiring, the BNE mails a renewal postcard to the last known address in our system. This postcard provides the information needed to renew the license online. If you cannot renew online, you must download a copy of the renewal application from our website. In any event, you do not need the postcard to renew. As long as you are within sixty days of your license expiring, you can go to our website and click on "online renewal" to be guided through the process.

Q: My license expires soon and I just completed the renewal. Can my employer verify the license is renewed before I get my hard copy in the mail?

A: Yes. You and your employer can verify the license online at www.bne.state.tx.us under "online verification." The BNE processes all renewals within ten (10) business days from the date received. A hard copy of the license is not required to practice.

Q: Where can I find a current listing of the compact states?

A: The most current listing of compact states is available on the National Council of State Boards of Nursing website at www.ncsbn.org.

Q: I am moving to another compact state next month. Will I need to obtain that state's license or can I just work on my Texas compact license?

A: The Nurse Licensure Compact allows a nurse with a valid home state compact license to work in any other compact state on their home state license. If your primary state of residence changes to the new state, you will have 30 days to obtain licensure in the new compact state before you must cease practicing on the old license. More information regarding the Nurse Licensure Compact is available online at www.ncsbn.org.

Q: What is the difference between Type I and Type II continuing education?

A: A **Type I** program is one that has been approved by a Board approved

agency. The credentialing agencies have met nationally pre-determined criteria to approve programs and providers of CE. The Board recognizes the following credentialing agencies:

- American Academy of Nurse Practitioners
- American Nurses Association/American Nurses Credentialing Center
- American Association of Critical-Care Nurses
- American Association of Nurse Anesthetists
- American College of Nurse-Midwives
- Texas League of Vocational Nurses
- Licensed Vocational Nurses Association of Texas
- National Association for Practical Nurse Education and Service (NAPNES)
- National Federation of Licensed Vocational Nurses (NFLVN)
- Continuing Medical Education (for APNs only)(Category I only)
- National Association of Pediatric Nurse Practitioners
- Colleges and Universities
- Other State Boards of Nursing

A **Type II** program is one which meets the criteria in the Board's rules, but has not been approved by one of the credentialing organizations. A Type II program may be approved for another healthcare professional or a program offered by one's employer. The program, however, must address nursing practice or the provision of healthcare, include nurses in the target audience, and meet the definition of nursing continuing education. See the BNE's continuing education information brochure, "The 123's of CE," at www.bne.state.tx.us.

Summary of Actions

A Regular meeting of the Board of Nurse Examiners was held July 20-21, 2006, in Austin. The following is a summary of Board actions taken during this meeting.

The Board of Nurse Examiners completed its review of: Title 22 of the Texas Administrative Code, Part 11, Chapter 211 relating to General Provisions, Chapter 213, relating to Practice and Procedure, and Chapter 219, relating to Advanced Nurse Practitioner Programs. This review was done pursuant to Texas Government Code §2001.039. Each section of the chapter was reviewed to determine whether it was obsolete, reflected current legal and policy considerations, reflected current procedures and practices

of the Board, and/or whether it was in compliance with Chapter 2001 of the Texas Government Code (Administrative Procedures Act).

The notice of review appeared in the July 14, 2006 edition of the *Texas Register* (31 TexReg5679). Chapters 211, 213 and 219 were re-adopted without amendment. The notice of completion of review appeared in the September 15, 2006 edition of the *Texas Register*.

JULY 2006 BOARD MEETING EDUCATION ACTIVITIES

The following is a summary of Board actions on education programs taken during the meeting.

Continued Full Approval Status Based on 2005 NCLEX-PN® Examination Pass Rate and Review of 2005 Annual Report

Approved Non-Emergency Faculty Waiver

Galen Health Institute, VN

Janice Hooper, PhD, RN, Texas BNE Education Consultant, Elected to NCSBN Area III Nominating Committee

At the annual Delegate Assembly Meeting of the National Council of State Boards of Nursing (NCSBN) held in Salt Lake City, Utah, on August 1-4, 2006, Janice Hooper, PhD, RN, an employee of the Texas State Board of Nurse Examiners, was elected to represent the NCSBN Area III Committee on Nominations. The Committee considers the qualifications of all nominees for officers and directors and presents a qualified slate of candidates for approval at the NCSBN Annual Meeting. Committee Area III includes the states of: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas and Virginia.

Dr. Hooper is a Nursing Consultant for Education at the Texas Board of Nurse Examiners (BNE). She has been an employee of the BNE since 2002. In her current position, she is involved in the ongoing activities and oversight of nursing education programs approved by the Board and assists in the authorization of advanced practice nurses. Dr. Hooper received a PhD in Education from St. Louis University and holds five Master's degrees, two of which are in Nursing.

The Board is pleased that Dr. Hooper will represent the interests of Texas and the Area in her position on the National Council's Committee on Nominations.

Texas Nurses Contribute to NCLEX® Exam Development

The Board of Nurse Examiners is pleased to recognize the following Texas nurses as participants in the NCLEX® test development process: Richard Beard of Mesquite, NCLEX-RN® Panel of Judges; and Clarissa Carvalho of San Antonio, Vocational Nurse Item Review Panel; September 2006. Mr. Beard and Ms. Carvalho assisted the National Council of State Boards of Nursing to ensure the inclusion of NCLEX® content which is current, accurate, practice-related and appropriate for an entry-level practitioner.

School Nurse Questions and Answers

Q: I am a school nurse and I want to know what information I have to collect in order to administer prescription medications to students? Do I need a physician's order and parent permission?

A: School nurses must have a physician's order to administer prescription medications in the school setting. Some school districts have implemented policies that require a separate written physician's order, while other districts require an up-to-date pharmacy label reflecting the current physician's order. In the definition of professional nursing, located in the Nursing Practice Act (NPA) Section 301.002(2)(C), it states that professional nursing involves the administration of medications and treatments as ordered by a physician, podiatrist, or dentist. In Position Statements 15.1 and 15.18, the Board states that nurses can also accept orders from advanced practice nurses and/or physician assistants because their orders originate from a physician through protocol. BNE Position statements are located on the website under "Nursing Practice Information," then under "Position Statements." ALVN may practice in a school setting under the supervision of a registered nurse according to the NPA Section 301.353. LVNs may also accept orders from physicians as explained in Position Statement 15.25.

One of the primary rules that applies to nursing practice is Rule 217.11, "Standards of Nursing Practice." This rule, along with the NPA and all Board Rules may be viewed on the website. Rule 217.11(1)(A) is important for school nurses and requires them to know and comply with not only the NPA and Board Rules but also federal, state and local laws, applicable to the nurse's practice setting. Although board staff cannot speak as experts on laws outside the BNE, the Texas Medical Board has the position that a physician prescribing medication in Texas must be licensed in Texas. The link to this position statement is <http://www.tmb.state.tx.us/rules/guidelines/ulpm.php>. In school nursing, both the Texas Education Code (TEC) and school district policies should be considered before administering medications to students. TEC Section 22.052 permits school nurses to administer prescription medications to a student provided a written request to administer the medication is received from the parents or guardians, and the medication is in the original container and properly labeled.

Rule 217.11(1) (B) requires nurses to provide for patient safety. This standard

establishes the nurse's duty to the patient, which supersedes any physician order or any facility policy. This "duty" to the patient requires the nurse to use good professional judgment when choosing to assist or engage in a given procedure (also see Position Statement 15.14, Duty of a Nurse in Any Practice Setting). Rule 217.11 (1) (C) requires nurses to be knowledgeable about the medications they administer and correctly administer them. Rule 217.11(1) (N) requires nurses to clarify medication orders they believe are inaccurate, non-efficacious or contraindicated with the ordering practitioner.

Q: As a school nurse, can I give an over-the-counter (OTC) medication without a physician's order? If I don't have an order, isn't that diagnosing and prescribing medicine?

A: School nurses must have a standing delegation order from a physician, or a parent must provide written permission and supply the over-the-counter (OTC) medication, in order for a school nurse to administer the medication at school.

Although the administration of OTCs by school nurses without a physician's order is not specifically mentioned in the NPA or Rules and Regulations, it is addressed in other laws. TEC Section 22.052 allows school nurses to administer OTCs if: the medication appears to be in the original container, is properly labeled, and the school nurse has received written authorization from parents or guardians to administer the medication. It's recommended that parents provide OTC medications that are to be administered.

The Texas Medical Board, in chapter 193.4 (8) (www.tmb.state.tx.us), "Standing Delegation Orders," permits "the issuance of medications which do not require a prescription for the symptomatic relief of minor illnesses provided that such medications are packaged and labeled in compliance with state and federal laws and regulations." This rule is interpreted broadly in that nurses can recommend OTCs under their nursing license for the relief of symptoms as it does not require the nurse to make a medical diagnosis, which would be the practice of medicine versus the practice of nursing.

BNE Position Statement 15.5, Nurses with the Responsibility for Initiating Physician Standing Orders, provides nurses with guidance and direction on how to carry out standing delegation orders. School nurses

can play an instrumental role in assisting school districts to develop policies for administering OTCs, i.e., how long parental consents will be valid before requiring a physician's order and under what conditions OTCs will be administered.

Board staff recommend utilizing the Six-Step Decision-Making Model for Determining a Nurse's Scope of Practice. This is a model to help nurses apply a step-by-step critical thinking process to assist the individual nurse in making a prudent decision about engaging in any given activity or intervention. The Six-Step model is located on our website, www.bne.state.tx.us, under "Nursing Practice Information," then under "Scope of Practice." This tool can assist a school nurse in determining if a request from students, parents, teachers, principals or administrators is within the scope of the individual school nurse's practice. You may also wish to review NPA Section 301.352, Protection for Refusal to Engage in Certain Conduct, as well as Rule 217.20, Safe Harbor Peer Review.

For additional information on administering medications, staff recommend the Texas Department of State Health Services' School Health Manual at: www.dshs.state.tx.us/schoolhealth/pgramguide.shtm. Other resources that may be helpful are the Texas School Nurse Organization at www.texaschoolnurses.org and the National Association of School Nurses at www.nasn.org.

Did you know...

Licensed nurses are required to wear some type of "insignia" when practicing nursing that displays to the public the type of licensure the nurse holds (LVN, RN). The requirements are not prescriptive to first or last name. Board Rule 217.10(b) further delineates the nurse's responsibilities in relation to an insignia (name badge).

For advanced practice nurses (APNs), Board Rule 221.2(b) requires use of the title authorized by the Board, as well as the RN license, since the authorization in the APN role/specialty hinges on the RN license. The NPA and rules are not prescriptive to credentials from certifying bodies such as APRN-BC or CCRN as these are not titles regulated or required by the Board.

2006 BNE Customer Service Survey Results

In April 2006, readers of the *Texas Board of Nursing Bulletin* were invited to participate in an online survey concerning the Board of Nurse Examiner's (BNE's) Customer Service Group, the *Texas Board of Nursing Bulletin*, and the BNE's web site. The survey appeared for three months on the BNE web site with web survey response data compilation taking place on July 6, 2006. Survey forms were also mailed to 2,000 randomly selected LVNs and RNs in April. Respondents could return completed survey forms either by mail or fax. Mailed and faxed survey forms were accepted through September, 2006. 230 individuals completed the survey. 47 of the 230 respondents completed mailed survey forms and returned them by mail or fax. The response rate for mailed survey forms was 2.3%. 183 individuals completed the online survey. Survey questions and responses are presented below.

Customer Service Group:

1. Have you contacted the BNE during the last six months for information or services?

Nurses on Guard - Error Prevention and Management -

Reducing Medication Errors Through Medication Reconciliation

A 58-year-old male is transferred mid-morning from the Intensive Care Unit (ICU) to the trauma floor five days following admission for multiple leg and pelvic fractures sustained in an auto-pedestrian accident. The patient is now awake but remains confused. He is receiving tube feedings and medications per enteral (Dobhoff) tube placed nasally into the small intestine. The ICU nurse re-writes all physician orders prior to transfer to the Trauma floor per facility policy. These orders are noted as being “verbal” though no actual review of the nurse’s written orders is done by the physician at the time of transfer. The transfer medication orders as transcribed include **Toprol-XL 200mg PO/PT Twice Daily**. There are no blood pressure (BP) parameter orders. The following afternoon the patient has a grand mal seizure and is transferred back to the ICU for monitoring. The ICU RN notes that the patient’s BP has dropped from his normal of 150’s/70’s to 76/44. No admission history was ever completed by nursing as the patient was unable to provide information and he has no family. The nurse ultimately discovers that the original physician’s order was for **Topamax** (an anti-convulsant agent) *200mg PO/PT twice daily, not Toprol-XL (an anti-hypertensive agent)*. The patient’s past records, obtained from old charts at the same facility, showed a history of seizures, but no history of hypertension. Drug reference book information on Toprol-XL indicates this extended release medication is typically given on a once-daily basis with doses starting at 50mg daily. In addition, because of the extended-release coating on the tablet, it is a “do-not-crush” medication. The patient had received two doses of Toprol “per tube” prior to the seizure, which meant the medication had to be crushed and dissolved in liquid for administration.

Fortunately, the patient did recover from his injuries, the accidental dosing of a high blood pressure medication (Toprol-XL), and the sub-therapeutic Topamax levels resulting in a seizure---but how could this incident have been avoided?

According to the Institute for Healthcare Improvement (IHI), poor communication of current medication orders between care givers, including home medications, accounts for at least 50% of the medication errors and up to 20% of adverse drug events (ADEs). In addition to the IHI, organizations such as the Institute of Safe Medication Practices (ISMP), the Joint Commission on Accreditation of Healthcare Organizations (JCAHO), and the Agency for Healthcare Research and Quality (AHRQ) support having processes for medication reconciliation, all of which involve nurses at the core of the process.

Nurses are typically involved in both the transfer and admission processes of patients between different units and to/from outside facilities. Given the alarming percentage of medication errors that occur during this exchange of patients, the need for nurses to be on guard to protect the patient’s safety is clear. Medication Reconciliation is defined by IHI as: “*a formal process of obtaining a complete and accurate list of each patient’s current home medications—including name, dosage, frequency, and route—and comparing the physician’s admission, transfer, and/or discharge orders to that list. Discrepancies are brought to the attention of the prescriber and, if appropriate, changes are made to the orders. Any resulting changes in orders are documented.*” This 3 step process involves: (1) Verification (documenting of medication history on admission); (2) Clarification (ensuring that the medications and doses are appropriate); and (3) Reconciliation (documentation of changes in the orders). Information on this model is located on page 8 of the “How To” Guide from IHI (see link to this 34-page document below).

Imagine that the following list of reasons is multiple choice, and choose the reasons you believe lack of a sound system for medication reconciliation could be contributing to medication errors in your own practice setting:

- The patient can’t tell you (too ill, unconscious) or doesn’t know what meds he/she takes (“I take a white pill for my blood pressure and a water pill”);*
- The facility forms are not conducive to collecting complete home medication information on admission, including over-the-counter (OTC) medications and herbal or homeopathic remedies taken by the patient;*
- There is no standardized process of double checks or alternative methods to assure accurate written communication of current and home medication regimens for patients;*
- The facility has no policy or procedure that clearly establishes who is on the medication reconciliation team and what role each team member is to play in the process (nurse, pharmacist, physician) at all transition points.*
- The patient’s needs change as they transition to different levels of care, and caregivers do not routinely check for appropriateness of restarting home medications, or for interactions between previous home medicines and newly-prescribed medications.*

The answer in some cases could be “all of the above,” but having every nurse on guard when these situations occur is already reducing errors in facilities that have developed sound medication reconciliation procedures at every patient transition point. For information on getting started with a medication reconciliation process, the Institute for Healthcare Improvement has a free 34-page extensive “How To” Guide which can be downloaded from the following link: <http://www.ihl.org/NR/rdonlyres/98096387-C903-4252-8276-5BF181C0C7F/0/UpdatedADEHowtoGuidev07postedtotheweb6806.doc>. This document further contains multiple web page links that offer extensive information on resources, forms, and processes to implement a medication reconciliation system that works, regardless of the practice setting. Web pages with additional information on implementing patient safety initiatives relating to medication reconciliation include:

Advanced Practice Questions and Answers

Q: I am a family nurse practitioner (FNP) practicing with a group of orthopedic surgeons. They want me to help them in surgery right away. I just enrolled in a registered nurse first assistant (RNFA) course, and have not started any of the course work yet. Can I help the surgeons now if they train me, or do I have to wait until I finish the course?

A: Section 301.353 (*House Bill 1718*) clarifies that advanced practice nurses who wish to first assist in surgery and be reimbursed for doing so must complete a RNFA program (both didactic and clinical components in their entirety) and hold current authorization to practice as an advanced practice nurse from the Board of Nurse Examiners (BNE). Until both portions of the course are completed in their entirety, you may not bill for first assistant services.

If you are employed by the physician, a group to which the physician belongs, or a hospital licensed or owned by the state, you may be eligible to assist even though you do not currently meet the criteria to be considered a nurse first assistant. Until such time as you have completed your RNFA program, you may assist the surgeons provided the following criteria are met:

- ***The physician must be physically present at all times;***
- ***You must be under the direct personal supervision of the physician;***
- ***Both you and the physician must be in the same sterile field; and***
- ***You must be qualified by education, training, or experience to perform the assigned tasks.***

Should you elect to assist under this latter option, you can neither use any titles that imply that you are a first assistant nor can your services as a first assistant be billed for reimbursement.

You may wish to review Rule 217.18, related to first assisting. The rule is available on the BNE web site (www.bne.state.tx.us) under the link for "Rules and Regulations."

Q: I am a clinical nurse specialist in psychiatric/mental health nursing with prescriptive authority who is new to Texas. In the state where I practiced prior to coming to Texas, I only needed a DEA number to prescribe controlled substances. Do I have to get a controlled substances permit from the Texas Department of Public Safety (TX DPS) too?

A: In addition to authorization to practice and prescriptive authority from the BNE, you are required to hold both a current TX DPS permit and DEA certificate in order to prescribe controlled substances in Texas. If one or the other lapses, you must cease prescribing controlled substances immediately. Failure to do so could result in felony charges being filed and an investigation by the Board.

Although you already have a DEA number, you must notify the DEA that you are now practicing in Texas. It is staff's understanding that the DEA will require you to provide a TX DPS permit because this is a requirement in the state in which you are now practicing. More information on the DEA registration process is available on-line at www.deadiversion.usdoj.gov/drugreg/index.html. TX DPS information is available on-line at www.txdps.state.tx.us/criminal_law_enforcement/narcotics/pages/Controlled.htm.

NURSES HAVE THE OPPORTUNITY TO HELP DEVELOP THE NCLEX® EXAMINATION

The National Council of State Boards of Nursing (NCSBN) is responsible for developing the NCLEX-RN® and NCLEX-PN® licensing examinations by utilizing contributions from nurse clinicians and educators. NCSBN encourages all nurses to become involved in the development of the exams by participating in the item (question) development program. Qualifications for participation are listed below.

Serving on an NCLEX® item writing or review panel is an excellent opportunity to network with nurses from across the country, contribute to continuing excellence in nursing practice, and build new skills that are useful for professional growth.

Item development sessions are held throughout the year and include the item writing and item review panels. Item writing panelists are responsible for creating new test items that may later appear on one of the exams. Item review panelists examine both newly created and older items to help decide if the items are current and relevant to entry-level nursing practice.

All item development panels are held in Chicago, Illinois, and generally last 3-4 consecutive days. Panelists stay downtown in a deluxe hotel surrounded by the shopping and theater districts. Most travel and food expenses are covered and new panelists receive more than 30 CEUs for their participation.

For more information about the NCLEX-RN® item development program or to receive an application for the item development panels please call the NCSBN item development hotline at 312-525-3775 or visit our web site at www.ncsbn.org.

IMPOSTER WARNING

If you have any knowledge or information regarding the employment practices of the following individual(s), please contact the Board's Enforcement Division immediately at (512) 305-6838.

Stacey Wright McCoy

Stacey Wright McCoy obtained employment as a licensed vocational nurse with a staffing agency in Frisco, Texas, and worked from April 7, 2004, through June 11, 2005. Staff noticed that they did not have a copy of Ms. McCoy's nursing license in her personnel file and requested a copy which was not provided by Ms. McCoy. Staff went online to the Board of Nurse Examiners' web site and could not locate a license in the State of Texas for Ms. McCoy. Ms. McCoy informed her employer that she had a New Jersey nursing license; however, a copy of the license was not provided. Staff went online to the New Jersey Board of Nursing's web site but could not locate a license under her married or maiden name. Ms. McCoy was terminated from employment on June 11, 2005 and the information was reported to the Board. The Board referred the case to the Collin County District Attorney's Office, Sherman, Texas.

Deanna Allen

On July 26, 2004, Deanna Allen voluntarily surrendered her license to practice professional nursing in Texas. Ms. Allen did not inform her employer that she no longer held a valid license. Ms. Allen continued to practice professional nursing without a license from July 27, 2004, through November 13, 2004. She was employed as a charge nurse with a long term care facility in Longview, Texas. Ms. Allen was terminated from employment on November 13, 2004, for sleeping while on duty. The information was reported to the Board. The Board referred the case to the Gregg County District Attorney's Office, Longview, Texas.

Sandra E. Madubiike

Sandra E. Madubiike secured employment as a home health aide with a home health agency in Dallas, Texas, on November 18, 2004. Ms. Madubiike's employee status was changed to licensed vocational nurse (LVN) in February, 2005, and she provided services as a LVN from February 23, 2005, through August 23, 2005. On September 16, 2005, the administrator was questioned on Ms. Madubiike's licensure status. The administrator was aware that Ms. Madubiike was not licensed to practice in the State of Texas. Ms. Madubiike informed the administrator that she was eligible to take the NCLEX-RN® through the State of California, and that she had an interim permit from the Board of Registered Nursing, Sacramento, California. The Board referred the case to the Dallas County District Attorney's Office, Dallas, Texas.

POSTSCRIPT NOTE: Ms. Madubiike obtained Texas vocational nurse licensure on October 24, 2006.

Linda Arenivar

Linda Arenivar secured employment as a registered nurse with a staffing agency in Fort Worth, Texas. Ms. Arenivar practiced as a professional nurse from August 31, 2005, through October 2005, at three flu clinics, giving flu and pneumonia vaccines. Staff discovered that Ms. Arenivar did not hold a RN or LVN license but was a Certified Nurse Aide (CNA) whose certificate had expired. Ms. Arenivar was terminated from employment and the information was referred to the Board. The Board referred the case to the Tarrant County District Attorney's Office, Fort Worth, Texas.

ANGELA COX

a.k.a. Angi Cox, a.k.a. Angelia J. Pryor Cox, a.k.a. Angela Pryor Cox

On March 27, 2006, Angela Cox applied for a registered nurse position with a hospital in Greenville, Texas. Ms. Cox provided the hospital with an Arizona license number. When the hospital contacted the Arizona Board, the social security number and date of birth provided by Ms. Cox did not match their licensee. Ms. Cox also told the hospital that she had a license from New York, but would not produce the license. Ms. Cox then provided the hospital with information for a Tennessee license, which also did not correspond to her social security number and date of birth. Ms. Cox was not hired for the position and the information was submitted to the Board.

On April 6, 2006, Angela Cox submitted an application for licensure by endorsement to the office of the Board.

continued on next page

Imposter Warning - continued from previous page

She indicated on her application that she held a current nurse license from the State of Georgia. A temporary permit was issued based on her application. On April 9, 2006, the temporary permit issued to Ms. Cox was canceled and is no longer valid.

On March 28, 2006, Angela Cox secured employment as a registered nurse with a staffing agency in Paris, Texas. On April 1, 2006, Ms. Cox was assigned to work as a registered nurse with a long term care facility. The agency attempted to verify licensure on the Board's web site and could not find a record. Ms. Cox provided them with a license number for her Arizona license; however, when they checked with the Arizona Board, the social security number and date of birth did not match. Ms. Cox then told them that she had filled out the wrong paperwork. She asserted that it was Tennessee, not Arizona, and she provided a different number for her Tennessee license. When staff contacted the Tennessee Board, the social security number, date of birth, and education did not match. The agency verified that the Angela J. Cox licensed in Arizona and Tennessee was not the same Angela Cox that they had hired. Ms. Cox was terminated from employment and the information was submitted to the Board. The Board referred the case to the Lamar County District Attorney's Office, Paris, Texas.

NOTICE OF DISCIPLINARY ACTION

The following nurses had disciplinary action taken against their licenses. If you would like to receive additional information regarding the disciplinary action that has been imposed, please send your written request to the Board of Nurse Examiners, Enforcement Division, 333 Guadalupe, Suite 3-460, Austin, Texas, 78701-3944. Citations Violated information may be viewed on line under "Publications" at www.bne.state.tx.us

CORRECTION

In the July 2006 issue of the *Texas Board of Nursing Bulletin*, the name of Daniel Louis Fowler, license number 686989, was listed as having been revoked on May 9, 2006. Mr. Fowler has had no disciplinary action on his license and is currently in good standing with the Board.

E-Mail Notification Service Available for Newsletter Readers, Businesses, and Organizations

The Board of Nurse Examiners (BNE) would like to send you an e-mail notifying you when the latest BNE newsletter is available for reading and providing a link directly to the newsletter's location on the internet. This service will be available at no cost and will be sent out on a quarterly basis as soon as the newsletter is available for reading. The e-mail address that you provide will be used in the strictest confidence and will only be used for the purpose of informing you when the newsletter can be downloaded and providing a direct link to the newsletter's location. If you would like to add your personal e-mail address or the e-mail address for your business or organization to the BNE's e-mail mailing list, simply send an e-mail indicating that you wish to receive the newsletter notification service to: webmaster@bne.state.tx.us.

VOLUNTEER FOR A PEER

You can make a difference. "TPAPN saved my life." Become a part of nurses helping nurses by calling the Texas Peer Assistance Program for Nurses at 1-800-288-5528.

Workshop Update

Nursing in Texas: A Safe Regulatory Foundation for Safe Practice

South Padre Island – February 2007
Houston – March 2007
Arlington – June 2007
Austin – July 2007

Five workshops addressing nursing jurisprudence and ethics are currently scheduled. The dates of the workshops will be announced once the facility arrangements are secured. Workshop brochures with registration forms may be accessed via the BNE website at www.bne.state.tx.us under “BNE Events” after the dates and locations have been finalized. These workshops have been approved for seven Type I contact hours. Attendance at this workshop is not mandatory for licensure renewal. This workshop is presented for educational purposes and for obtaining continuing education credit only. For question regarding the BNE workshops, please call the Workshops Information line at (512) 305-6844 or e-mail inquiries to workshops@bne.state.tx.us.

FYI - Licensure Verification Information Available 24/7 for Nurse Administrators/Employers

All vocational nurses, registered nurses and registered nurses with advanced practice authorization shall ensure the verification of current Texas licensure or other compact state licensure privileges and credentials of personnel for whom the nurse is administratively responsible, when acting in the role of nurse administrator [22 TAC §217.11(1)(V)]. Nurse administrators/employers hiring graduate nurses, registered nurses, licensed vocational nurses, or advanced practice nurses can check the licensure status of nurse applicants through the Board of Nurse Examiners' web site at: <https://www.bne.state.tx.us/olv/olverif.htm>. This service is available 24 hours a day, seven days a week. BNE customer support representatives can be reached for phone verification during regular business hours, Monday through Friday, 8:00 am to 5:00 pm. The phone number is: 512 305-6809.

NCSBN Offers CE Course: *Acclimation of International Nurses into U.S. Nursing Practice* benefitting International Nurses

The National Council of State Boards of Nursing (NCSBN) announced the launch of a online continuing education (CE) offering benefitting international nurses and students preparing to practice in the U.S. The self-paced online course helps facilitate a successful professional and personal acclimation by providing key information and by directing learners to additional resources for a more in-depth understanding of the various aspects of transitioning into the U.S. Participants receive 6.6 contact hours credit. The cost of the course is \$40.00. For more information, visit the NCSBN's continuing education web site at: <http://www.learningext.com/>

NURSING EDUCATION.....(512) 305-6816

The purpose of the *Texas Board of Nursing Bulletin* is to disseminate information to nurses licensed by the State of Texas, their employers, health care providers, and the public concerning laws and regulations established by the Board of Nurse Examiners related to the safe and legal practice of nursing. The *Texas Board of Nursing Bulletin* provides information on current issues and trends in nursing regulation, status of nursing education programs, information regarding licensure and nursing practice, and disciplinary action taken against licensees who violate the Nursing Practice Act.

Information published in the *Texas Board of Nursing Bulletin* is not copyrighted and may be reproduced. The Board would appreciate credit for the material used and a copy of the reprint. Direct questions or comments should be sent to: Newsletter, Board of Nurse Examiners, 333 Guadalupe, Suite 3-460, Austin, Texas 78701-3944. You may e-mail your comments to bruce.holter@bne.state.tx.us or call (512) 305-6842.

Office Hours and Location

The Office of the Board of Nurse Examiners is located in The William P. Hobby Building, located at the corner of 4th and Guadalupe in downtown Austin. The mailing address is: 333 Guadalupe, Suite 3-460, Austin, Texas 78701-3944. Office hours are 8:00 a.m. to 5:00 p.m., Monday through Friday, except for designated holidays.

The Board of Nurse Examiners is an equal opportunity/affirmative action employer and does not discriminate on the basis of race, color, religion, sex, national origin, age, or disability in employment or in the provision of services, programs or activities.

Texas Board of Nursing Bulletin is published quarterly by the Board of Nurse Examiners for the State of Texas. In compliance with the Americans with Disabilities Act, this document may be requested in alternate formats by contacting the Board's office, (512) 305-7400 (Voice), (512) 305-7401 (FAX), or by visiting The William P. Hobby Building, 333 Guadalupe, Suite 3-460, Austin, Texas.

Change of Address

Notification of change of address as required by Rule 217.7 can be by three different methods:

1. Mail to: Board of Nurse Examiners, 333 Guadalupe, Suite 3-460, Austin, Texas 78701-3944; 2. E-Mail to: webmaster@bne.state.tx.us; or
3. Fax to: Board of Nurse Examiners (512) 305-7401.

Notifications must include:

1. RN or LVN License Number; 2. Social Security Number; 3. Old and New Address; and
4. Your Name.
